

ThreadBase

```
graph BT; A[ThreadBase::InputStructure] -.->|m_classPointer| B[ThreadBase];
```

The diagram illustrates a pointer relationship between two classes. At the top is a white rectangular box labeled 'ThreadBase'. Below it is a gray rectangular box labeled 'ThreadBase::InputStructure'. A dashed purple arrow points from the top of the gray box up to the bottom of the white box. To the right of the arrow, the text 'm_classPointer' is written, indicating the name of the pointer variable.

m_classPointer

ThreadBase::InputStructure
